

NEW ASCOT Toilet Range

R&D DEPARTMENT

ASCOT not only has a powerful 30-person team of designing and R&D, but also has perfect research and development system, strong product development ability. That is ensuring ASCOT to be popular both in domestic and international market for so many years.

With excellent product design, stable product quality and remarkable product value, ASCOT sanitary ware always meets the high-class demands of customers all over the world in the field of bathroom industry.

RAW MATERIAL

All of ASCOT ceramic products use premium potter clay raw material, then machining by advanced manufacturing equipment. At the same time, exquisite manufacture technology and strict inspection standard are also the guarantee of ASCOT high quality products.

PRODUCTION PROCESS

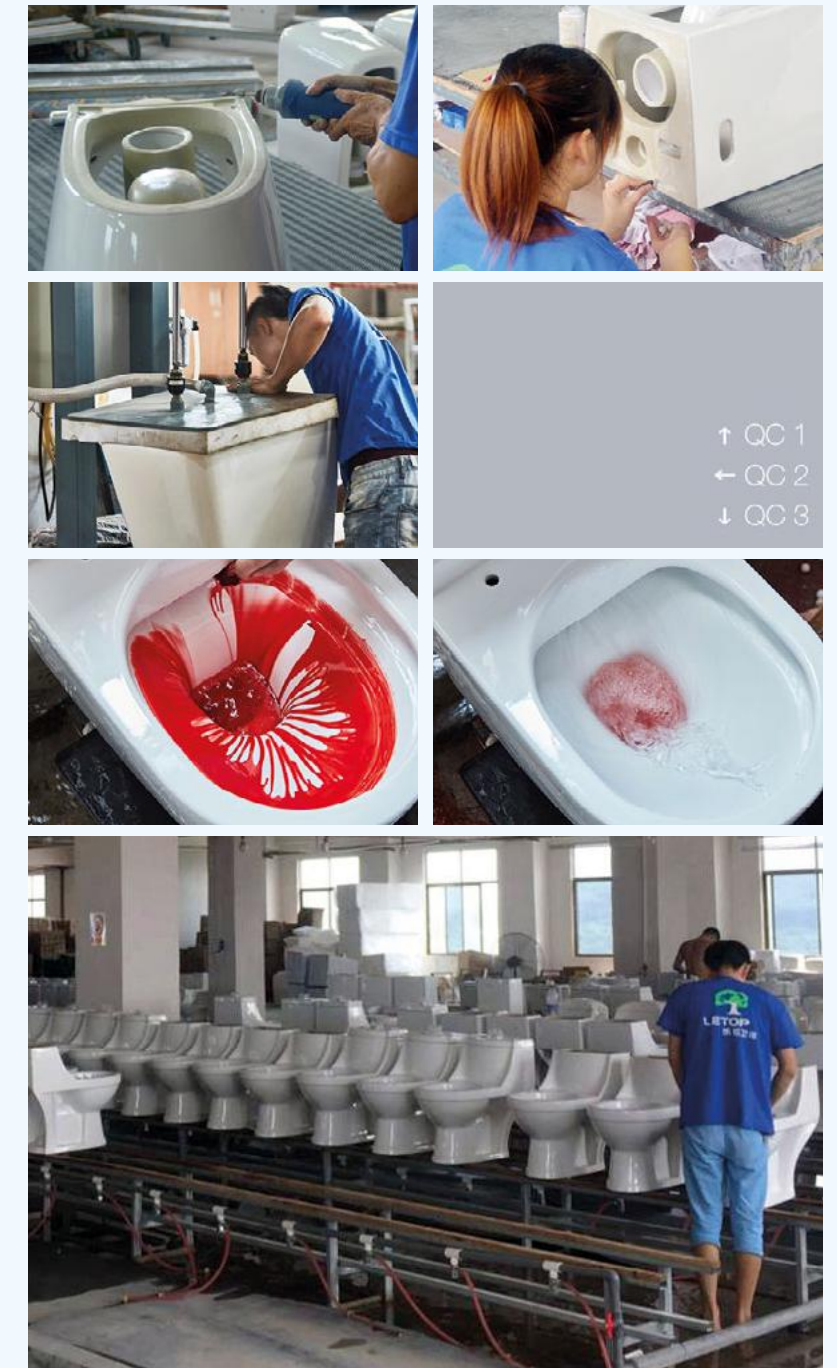

By adopting the world first-class high pressure moulding equipment, the comprehensive production efficiency has been increased by 4 times. By utilising the digit control tunnel kiln, the firing temperature is strictly controlled over 1280 degrees, which ensures the water absorption rate of each product below 0.2%. The inspection of toilet pan is stricter. Each toilet is not only being tested on appearance, fixing, flushing and sewage function, but also has to pass rigorous air leak test.

QUALITY CONTROL

- QC 1. Appearance inspection
- QC 2. Air testing leaking 75 pa
- QC 3. Cleaning test
- QC 4. Second inspection for finished item

ASCOT TECHNOLOGICAL

The route of excellence

Double-shift Water Outlet: the design of 3/4.5L double-shift water outlet not only ensures the thorough cleaning, but also water-saving.

Rimless Toilet: traditional flush rims attract germs, dirt and deposits. ASCOT Rimless Toilet is designed entirely without a flush rim. Therefore, there are no hidden, hard-to-reach places where bacteria can build up and odour can develop.

Mute Slow-down Seat Cover: damper is installed; it can reduce the noise of collision when the seat cover is closed.

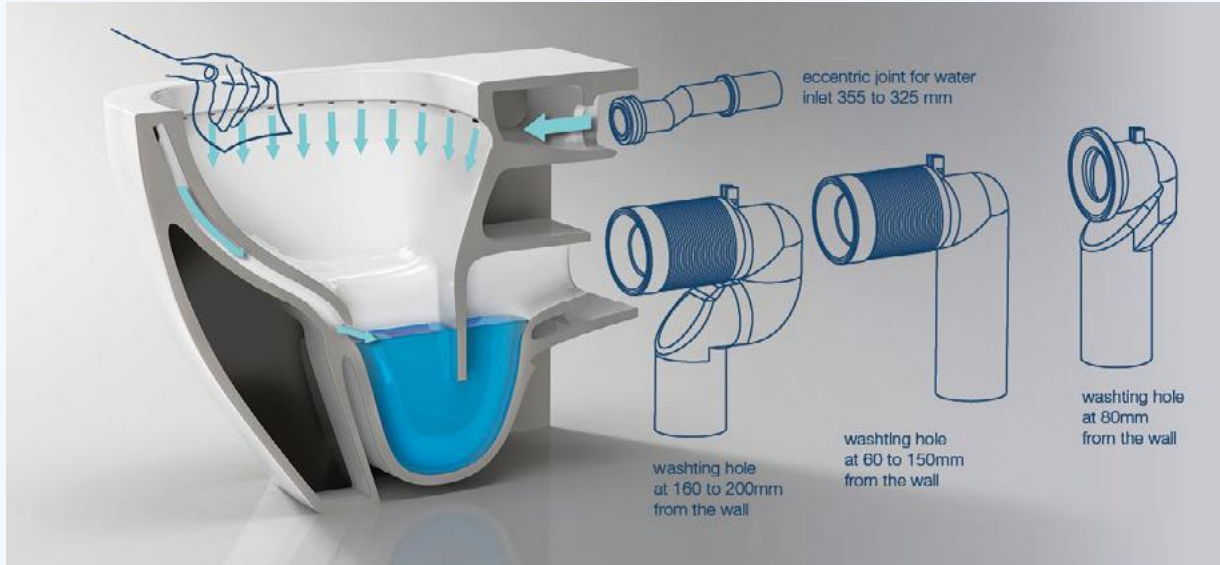

Easy-to-clean Glazing: The Surface of porcelain glaze is so greatly smooth that is easy to clean and has no hidden, hard-to-reach places where bacteria can build up.

Whole-sewer Glazing: the inner surface of sewer is completely glazed so that the sewer is smooth and nowhere for dirt to hide, and no blocking any more.

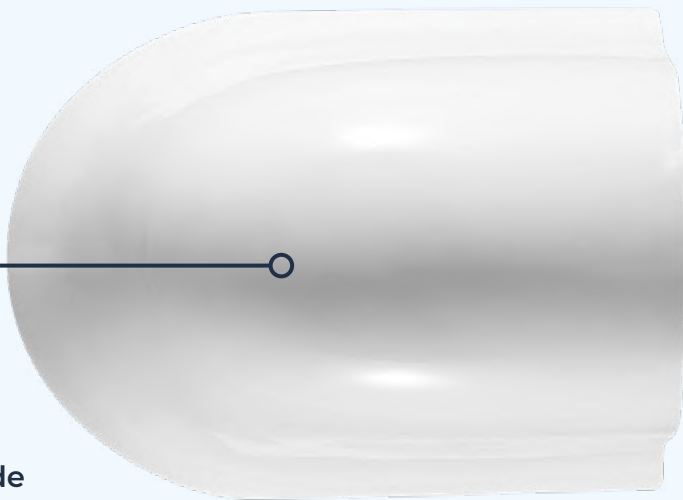

Easy assembly & disassembly: the design of easy assembly & disassembly is excellent. A slight twist can ensure the easy cleaning of the toilet.

FULLY SEALED DESIGN

NOWHERE FOR INSECT TO HIDE

Compared with the traditional toilet, the new product is upgraded to a fully-sealed structure, which is more effective in suppressing pipeline odour overflow; preventing air leakage, water leakage, breeding mosquitoes. Nowhere for insects to hide. Health and safety.

- Fully sealed
- Leakproof
- Deodoeant
- Easier to clean
- Nowhere for insects to hide

ASCOT RIMLESS

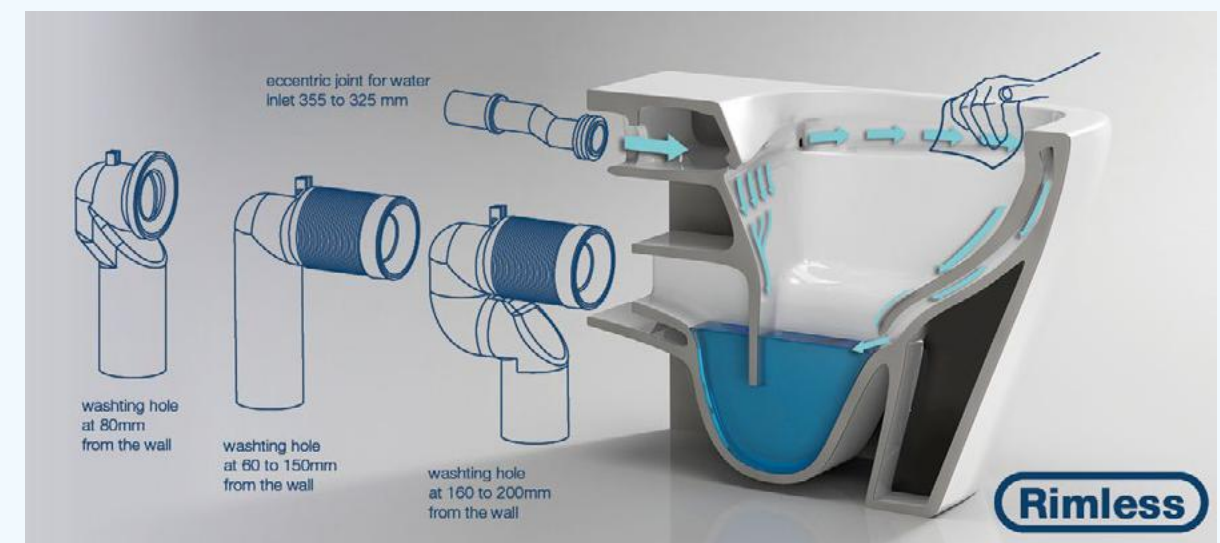

In addition to design, hygiene and ease of cleaning are also decisive factors when choosing toilet ceramic appliances. Traditional flush rims attract germs, dirt and deposits. ASCOT Rimless toilet is designed entirely without a flush rim. There are therefore no hidden, hard-to-reach places where bacteria can build up or odour can develop. Because ASCOT Rimless Toilet is much easier to clean, there are the first choice when it comes to toilet hygiene.

ASCOT Rimless Toilet feature a patented flush technology developed by ASCOT. A flush guide ensures a hygienically perfect flush every time using less water.

No flush rim-nowhere for germs to hide. Without a flush rim, there is no hidden, hard-to-reach places where germs, bacteria, dirt and deposits can accumulate.

Easy to clean. A clean and sparkling ceramic surface with one wipe.
